

2021 URFC THP Monitoring Report

Timber Harvesting

Timber Harvest Plan	Harvest Volume (MBF)	Harvest Acres	Silviculture
Iron Gate Gulch	279	55	Selection
Total	279	55	

Sediment Source In 2021, 24 Erosion Control Plan (ECP) sites were monitored on the Usal Redwood Forest Company Property. All of the sites were performing as described in the ECP. Sites that were previously identified as needing additional work were addressed in 2021.

Note: Two ECP termination reports filed for the year, Pokemon and McCoy THP's.
