

2022 URFC THP Monitoring Report

Timber Harvesting

Timber Harvest Plan	Harvest Volume (MBF)	Harvest Acres	Silviculture
Iron Gate Gulch	769	102	Transition, Selection, Variable Retention
Upper Soldier	113	16	Selection, Variable Retention
Total	882	118	

Sediment Source In 2022, 38 Erosion Control Plan (ECP) sites were monitored on the Usal Redwood Forest Company Property. All of the sites were performing as described in the ECP. Sites that were previously identified as needing additional work were addressed in 2022.

Note: Two ECP termination reports filed for the year, Wildcat and Usal Beach THP's.
