

## 2023 URFC THP Monitoring Report

### Timber Harvesting

Timber Harvest Plan	Harvest Volume (MBF)	Harvest Acres	Silviculture
Iron Gate Gulch	45	8	Selection
Upper Soldier	366	123	Selection, Variable Retention
Bear Creek West	292	53	Selection, Variable Retention
<b>Total</b>	<b>703</b>	<b>184</b>	

**Sediment Source** In 2023, 111 Erosion Control Plan (ECP) sites were monitored on the Usal Redwood Forest Company Property. Most of the sites were performing as described in the ECP. Early winter rains and slides made some site inaccessible prior to the end of the calendar year and will be evaluated in 2024 as soon as access has been restored.

**Note: One ECP termination reports filed for the year, McCoy THP's.**
