

2023 URFC Pesticide Monitoring Report

Herbicide Use on the Usal Redwood Forest

To address the social and environmental aspects of community forestry, the RFFI Board has elected to not use forest herbicides to manage competing vegetation for the foreseeable future. Instead it will use costlier non-chemical techniques, i.e., fire, manual cutting and mastication.

Year	Herbicide Name	Gallons of Herbicide	Area Treated
2010	N/A	0	0
2011	N/A	0	0
